

IMOT

A development program for senior R&D managers

IMOT 2024. 18 days. Three modules. Europe, the United States and Asia. You interact with lecturers from the world's best universities. The program helps you manage R&D strategically to prepare your company for future business growth.

Module 1: Where We Are Heading

Munich, Germany, March 18-22, 2024

Explore the link between business and technology. Build a strategic framework for your future R&D.

Module 2: Silicon Valley - The Source

Palo Alto, CA, United States, May 19-24, 2024

Accelerate your innovation strategy by studying the latest trends among high-tech companies. Feel the intensity of Silicon Valley.

Module 3: The Asian Excellence

Seoul, South Korea and Bangalore, India, September 1-7, 2024

Study technology development in advanced and emerging markets. Realize the power of Asia.

Study together with experienced R&D managers from other multinational companies. Gain immediate tools for your leadership.
